Professional Summary:

Full Stack Developer with experience in designing, developing, and maintaining enterprise **web applications** using **Node.js, Express.js, React.js, JavaScript, MySQL, and MongoDB**. Skilled **in REST API Development, Authentication & Authorization, Database Design, SQL Optimization, MVC Architecture, Role-Based Access Control (RBAC), and Agile Development**. Experience in delivering scalable business applications, production support, deployment, and performance optimization.

Technical Skills:

Programming Languages: JavaScript, HTML5, CSS3, SQL
Backend: Node.js, Express.js, REST APIs, JWT Authentication, MVC Architecture, Session Management
Frontend:HTML5, CSS3, Bootstrap 5, React.js, EJS, Responsive Web Design
Databases: MySQL, MongoDB
Cloud & DevOps: AWS, Terraform, Jenkins, Linux
Tools & Technologies: Git, GitHub, VS Code, Postman, IIS Server

Professional Experience:

SEO Project Coordinator
Page Traffic Pvt. Ltd.
Sept 2026 – Present

Key Responsibilities

- Coordinate with clients and development teams to communicate website requirements, technical issues, and project deliverables.
- Monitor website keywords rankings, organic traffic trends, and SEO performance to track campaign progress.
- Coordinate technical SEO activities, including website structure optimization, crawlability, indexing, and on-page implementation.
- Collaborate with SEO, Content, Desing, & Development teams to align technical requirements with campaigns objective.

Full Stack Developer Intern
MMTC-PAMP India Pvt. Ltd.
May 2025 – August 2026

Key Responsibilities

- Developed and maintained **4+ enterprise web applications** using **Node.js, Express.js, JavaScript, MySQL, HTML, CSS, and Bootstrap**.
- Designed, developed, and maintained **20+ RESTful APIs** following the **MVC architecture**.
- Managed production support, including **bug fixing**, **troubleshooting**, performance optimization, and feature enhancements for live applications.
- Built **dashboards, reports**, and internal business applications to improve operational efficiency and **production monitoring**.
- Performed **SQL query optimization, database validation, and data analysis** to improve application performance and **reporting accuracy**.
- Worked closely with cross-functional teams to resolve production issues and ensure smooth business operations.
- Participated in application deployment, **IIS server hosting, testing**, and post-deployment support.

Projects:

- **1: Visitor Management System – MMTC-PAMP India Pvt. Ltd.**

  Role: Full Stack Developer

  Tech Stack: Node.js, Express.js, MySQL, HTML5, CSS3, JavaScript, Bootstrap

  Key Highlights:

  - Developed a **secure Visitor Request & Approval System** with **role-based access** for employees
  - Implemented a **multi-level approval workflow** to automate visitor request processing.
  - Built **QR Code/Barcode-based Scan-In and Scan-Out** functionality for seamless visitor entry and exit tracking.
  - Designed and integrated **RESTful APIs** for **frontend-backend** communication.
  - **Optimized MySQL queries and backend logic** to improve application performance and response time.Developed **dynamic dashboards** for monitoring visitor requests, approvals, and visitor history.
  - Implemented form **validations**, **error handling,** and input sanitization to ensure data integrity and application security.
  - Followed **MVC architecture** and coding best practices to build scalable and maintainable application modules.

- **2: Die Making & Tracking Software – MMTC-PAMP India Pvt. Ltd.**
  Role: Full Stack Developer
  Tech Stack: Node.js, Express.js, MySQL, HTML5, CSS3, JavaScript
  Key Highlights:
  - Developed an enterprise **Die Lifecycle Management System** to manage complete die lifecycle including creation, design approval, machining, coating, QC inspection, refurbishment, and final dispatch stages.
  - **Implemented transaction-based workflow and audit history tracking** to maintain complete traceability of die movement, status changes, and operational activities.
  - Designed and developed **role-based** modules for different departments to manage die operations, approvals, and process tracking.
  - Built secure **CRUD operations**, **server-side validations, authentication, and error handling** mechanisms to ensure reliable and consistent **data management**.
  - Developed and integrated **RESTful APIs** for seamless communication between frontend and backend services.
  - Optimized **MySQL database queries, joins, indexing, and backend logic** to improve application performance and reporting efficiency.

- **3: Minting Dashboard – MMTC-PAMP India Pvt. Ltd.**
  Role: Full Stack Developer
  Tech Stack: Node.js, Express.js, MySQL, HTML5, CSS3, JavaScript, Bootstrap
  Key Highlights:
  - Developed dashboards and reporting features for production monitoring and operational visibility.
  - Implemented transaction history tracking and real-time status monitoring.
  - Developed **REST APIs, CRUD operations**, validation, and **role-based access control**.
  - **Optimized database queries** and backend logic for efficient **data processing and reporting**.

- **4: Nexora Technologies – Business Website**
  Tech Stack: HTML5, CSS3, JavaScript, Bootstrap.
  Key Highlights:
  - Developed a responsive corporate website for a **web development** startup.
  - Implemented **SEO-friendly** structure and optimized page performance.
  - Designed service, portfolio, blog, and contact sections with **modern UI/UX**.
  - Deployed the website using **GitHub** Pages.

Education:

- **Bachelor of Technology (B. Tech)**
  IIMT College of Engineering (Greater Noida)
  2020-2024
- **Intermediate (Class 12th)**
  Shiv Public Sr. Sec. School, Sohna, Gurgaon
  2019-2020
- **High School (Class 10th)**
  Shiv Public Sr. Sec. School, Sohna, Gurgaon
  2017-2018

Achievement:

- Developed 4+ enterprise applications.
- Built 20+ REST APIs.
- Implemented secure authentication systems.
- Optimized backend performance using SQL query tuning.
- Worked on production deployment and IIS hosting.

Certifications:

- DevOps Training – OpsTree Solutions.
- Python & Django – NetcoreInfo Business Group (NITD)
- Front-End Development - Smart knower
